Highly motivated and results-oriented Freelance Software Engineer with 4 years of experience designing, developing, and implementing innovative software solutions. Proven ability to tackle complex problems, work independently, manage projects effectively, and deliver high-quality code within deadlines. Passionate about learning new technologies and collaborating effectively with clients. Seeking challenging freelance projects to leverage my skills and experience in contributing to impactful applications.

## Skills

**Mobile Development:** Flutter (Cross-Platform Mobile App Development), **Web Development:** JavaScript (ES6+), React, NextJs, HTML5, CSS3, **UI/UX Design:** UI Design principles, Figma (or similar tool), **Content Management Systems (CMS):** WordPress, **Web Design Tools:** Webflow, **Data Analysis:** Microsoft Excel

## Experience

Developed a mobile application called Ajo (Freelance Project) to facilitate saving schemes amongst groups. Utilized Flutter for cross-platform development and implemented features for managing group contributions, tracking progress, and ensuring transparency

Designed and built a web-based farm management system for Agric World Ltd (Freelance Project). Utilized python to create functionalities for tracking crops, managing inventory, and generating reports.
